

CR50N

Recessed Lighting Solutions for the adventurous. The recessed lighting collections offer a creative approach to illumination, geometry, and color. Available in various widths, ranging from 35mm to 100mm, these luminaires are designed to capture attention in retail spaces, public buildings, and offices that emphasize their corporate identity.

The product is available in custom sizes and lengths, offering a variety of customization options, including curves, corners, finishes, and integrated accessories.
