

Lucretia Sign LED Tri-Sided Column Display

The LED Tri-Sided Column Display is a striking, freestanding digital signage solution with three synchronized LED panels. Each side features a P2.5 high-resolution indoor full-color LED screen, designed to deliver immersive and dynamic content from multiple viewing angles.

This all-in-one unit supports video, images, and text playback, and can be updated wirelessly via mobile app. With its sleek, columnar design, it's ideal for placement in hotel lobbies, retail spaces, shopping malls, corporate entrances, or exhibition halls.

Key Features:
