

Verona Symphony Chandelier

Product Specification: Verona Symphony Chandelier

Product Code: LUPD558/51/84

Dimensions: D1300mm × H1100mm (custom sizes available upon request)

Standard Chain Length: 1200mm (custom lengths available to accommodate various ceiling heights)

Description:

The Verona Symphony Chandelier is a masterpiece of lighting design, combining hand-blown glass tubes with a robust stainless-steel frame to create a visually striking centrepiece for grand interiors. Ideal for residential voids, stairwells, high-ceiling living areas, or commercial environments requiring an elegant focal point.

Power & Light Source: E14 LED bulbs (Included), providing energy-efficient illumination with an output of approximately 90lm per watt — ensuring optimal brightness for large open spaces

Colour Temperature: Available in 3000K (Warm White) and 4000K (Cool White), allowing you to tailor the ambience from inviting warmth to a crisp contemporary tone

Dimmable: Compatible with TRIAC dimming systems, offering smooth adjustment of brightness to suit different occasions

Material: High-grade stainless steel paired with hand-blown glass tubes, combining durability with refined elegance

Finish: Polished stainless steel frame with clear glass tubes, creating a dynamic interplay of reflection and transparency

Weight: Approx. 80kg, reflecting the chandelier ' s solid construction and premium materials

Standard Lead Time (for Backordered Items): Approximately 10 weeks

Code: F

Notes: On-site assembly is required. Professional installation is strongly recommended to ensure safety and to fully showcase the chandelier ' s stunning design.
